## Medicaid Administrative Claiming (MAC)

# School Based Medicaid Administrative Claiming (MAC) Overview

The School Based Administrative Claiming program is a federally funded program that allows schools to be reimbursed for some of their costs associated with coordinating school based health services and providing Medicaid outreach activities

Administrative Claiming involves all school district staff who, as part of their routine job duties, help students and their families learn about Medicaid, apply for Medicaid benefits, refer students to community medical and mental health providers or collaborate with other school staff or community agencies to better address the health care needs of students

Administrative Claiming reimburses school districts for the time employees spend in administrative activities that directly support efforts to identify and enroll potentially eligible children and their families into Medicaid

# Components of MAC Claim
